- B. Absentee ballots shall be given out to those Members in good standing who have requested such ballots in writing.
- C. Each absentee ballot and its accompanying return envelope will be given a matching number. If the number on the returned ballot and envelope do not match, the ballot will be considered invalid and destroyed.
- D. The names of all Members provided an absentee ballot will be retained on a list by the office staff.
- E. Absentee ballots will be counted before the General Election by the office staff, two (2) members of the Board of Governors and the Nominating Committee Chairperson. The actual counting procedure outlined in Paragraph K of this section should be used to count the absentee ballots lots.
- F. The General Election Meeting will be closed to all Non-Hawaii Yacht Club members. A table will be set up at the head of the front stairs for the purpose of checking in Voting Members.
- G. A Voting Member listing will be generated from the Hawaii Yacht Club Member database by the office staff. All Members given absentee ballots or Not in good standing will be redlined and annotated as a Member Not in Good Standing or as an absentee voter by the office staff before the list is given to the Chairman of the nominating Committee.
- H. Voting eligibility will be verified by having each Member check in at the check-in table. The names of those Members determined to be eligible will be lined out and the back of their left hand will be stamped. The unique stamp will be selected by the office staff and must vary from year to year.
- I. Following the election speeches, the Chairman of the Nominating Committee will instruct the Voting membership to pick up their ballots. Voters will proceed to the ballot distribution table and show the ballot distributor the back of both hands. If only the left hand is stamped, the voter will be given a ballot and his/her right hand will be stamped. Individuals with no stamp on their left hand or a stamp on both hands will not be given a ballot.
- J. After a reasonable period of time, the Chairman of the Nominating Committee will notify Members of the planned voting cutoff time. When voting is cut off, the ballot boxes will be removed from the tables and taken to the Boardroom.
- K. The integrity of the vote counting will be maintained by separating the votes into two boxes and having one part of them counted in the office and the other part counted in the Boardroom. The actual counting will be done by four (4) people in each room. One person will announce the content of the ballot and two (2) people will record the votes on separate tally sheets. The fourth person will be a Flag Officer or Board Member and serve as the observer.
- L. Once the ballots have been counted, the recorders will compare tally sheets. If the counts are identical, the observer will sign the tally sheets and give them to the Chairman of the Nominating committee. If the counts are not identical, the counting process will be repeated.

- M. The Chairman of the nominating Committee will total the tally sheets from each room and the previously counted absentee ballots. All ballots and tally sheets will be wrapped into a single package and stored in the office safe.
- N. The Chairman of the Nominating Committee shall announce the election results to the Membership.
